

The primary and intermediate self-contained classes were happy to join Ms. Tasca's 4th grade class in celebrating Thanksgiving. Thanks to all the paraprofessionals and Ms. Slusark, Ms. Adell, Ms. Hernandez, and Ms. Tasca for preparing our Thanksgiving feast for the children to enjoy! Not only did the students enjoy a hot meal, it was fun for them to participate in arts and crafts allowing them to experience essential social interaction and life skills. A special thanks to all of Ms. Tasca's students for being ambassadors to the children during this very special event!

The students that receive speech/language services at Washington school were able to participate in theme lessons during the month of November. Thanks to a Read To Me story app, the iPad proved to be another valuable tool in motivating and engaging the children to develop their language skills.

We look forward to utilizing technology in December to assist the students at Washington School with speech/language enhancement while celebrating the Holiday Season!!
